

# Formule groupe "Combinaisons"

Formule groupe Combinaisons (Combination) allows group members to wager on their lucky numbers and discover all the possibilities of combining them for different types of selections. It is only possible to play at Formule groupe Combinaisons at a retailer with a selection slip.

It's a quicker and easier way to play several selections all on one slip.

The advantages are in the winnings. Indeed, when you win, you always win more than one prize and, by playing as a group, you split the cost.

Formule groupe is available for the following lotteries:

**LOTTO-QUÉBEC**

## The cost per play is as follows:

- Lotto Max: \$5 for three 7-number selections
- Québec Max: \$2 for three 7-number selections
- Lotto Max + Québec Max: \$7. In this case, the same three 7-number selections participate in both the Lotto Max and Québec Max draws of a same date
- Lotto 6/49: \$3 for one 6-number selection and one "Guaranteed Prize Draw Selection", representing a computer-generated 10-digit number
- Québec 49: \$1 for one 6-number selection
- Lotto 6/49 + Québec 49: \$4 for one 6-number selection and one "Guaranteed Prize Draw Selection", representing a computer-generated 10-digit number. In this case, the same 6-number selection participates in both Lotto 6/49 and Québec 49 draws of a same date.

## Example of combinations:

### Lotto Max and/or Québec Max 8-number combination:

If you choose 1, 2, 3, 4, 5, 6, 7 and 8, you will obtain the following selections:	
1, 2, 3, 4, 5, 6, 7	1, 2, 3, 5, 6, 7, 8
1, 2, 3, 4, 5, 6, 8	1, 2, 4, 5, 6, 7, 8
1, 2, 3, 4, 5, 7, 8	1, 3, 4, 5, 6, 7, 8
1, 2, 3, 4, 6, 7, 8	2, 3, 4, 5, 6, 7, 8

Each board will generate **8 selections of 7 numbers from 1 to 50 valid for the Lotto Max and/or the Québec Max**, according to the game(s) selected. The 3 boards will give you **a total of 24 selections** (8 plays of 3 selections).

### The cost of this option is as follows:

- \$40 for Lotto Max (8 plays x \$5)
- \$56 for Lotto Max + Québec Max (8 plays x \$7)
- \$16 for Québec Max (8 plays x \$2)

For a Lotto Max and/or Québec Max 9-number combination, 36 selections of 7 numbers will be generated per board, and the 3 boards will give you a total of 108 selections (36 plays of 3 selections).

The same principle applies to Lotto 6/49, Québec 49 and Lotto 6/49 + Québec 49 combinations, except for the fact that for Québec 49, a play is made up of only one selection of 6 numbers and from 1 to 49 and, for Lotto 6/49, of one selection of 6 numbers from 1 to 49 and one Guaranteed Prize Draw Selection. In the case of a combination of 5 numbers, the computer will register the 44 numbers not selected as the 6<sup>th</sup> number, which will generate 44 selections of 6 numbers.

In this manner, at Lotto 6/49, you will obtain respectively 44, 7, 28 or 84 selections of 6 numbers, according to the type of combination selected (5, 7, 8 or 9 numbers), but also the number corresponding to the computer-generated Guaranteed Prize Draw Selections.

## The cost

### The cost for one draw of the game(s) of the selected option, and according to the quantity of numbers of your combination(s), is as follows:

	8 numbers*	9 numbers
Lotto Max	\$40	\$180
Lotto Max + Québec Max	\$56	\$252
Québec Max	\$16	\$72

	5 numbers	7 numbers**	8 numbers	9 numbers
Lotto 6/49	\$132	\$21	\$84	\$252
Lotto 6/49 + Québec 49	\$176	\$28	\$112	\$336
Québec 49	\$44	\$7	\$28	\$84

\*A maximum of 8 tickets/shares may be issued for this type of combination.

\*\*A maximum of 7 tickets/shares may be issued for this type of combination.

Beside some exceptions, Formule groupe Combinaisons groups may have 2 to 20 members. However, in some cases, you will have to include a certain number of Extra in order to play the type of combination selected with the desired number of shares.

That situation occurs when the cost of the chosen type of combination is not equally divisible by the number of shares. Example: in Lotto 6/49, an 8-number combination costs \$84; if you want 5 shares, the cost per share is not equally divisible. By adding an Extra, the total cost is \$85, resulting in a cost per share of \$17.

# The prizes

## Création de groupe coupon

The Création de groupe coupon is issued by the terminal once a group is created.

It is not a ticket. For the person responsible for a group, the coupon can only be used for replay purposes, if so desired.

The group may replay the same selections/plays as well as Extra number(s) within 30 days following the date of the draw in which the group participated. However, at Lotto 6/49, the Guaranteed Prize Draw Selections cannot be replayed; the replayed ticket will then contain the same 6-number selections and Extra numbers as those as the original group, and you will obtain new Guaranteed Prize Draw Selections generated by computer.

## Group ticket

A group ticket consists of one share for a single draw, more specifically the next draw of the game(s) selected.

## Prize Amount

In the case of a valid winning ticket, each group member's prize associated with that group ticket is calculated according to the share indicated on the ticket.

## Free Play (applicable only to Lotto Max, Québec Max and Lotto 6/49)

Free plays are automatically played in the draw following the draw in which they were won. By validating his/her initial winning ticket, a group member will receive his/her share associated with said free play.

Each group member's share of a free play is equal to that indicated on his/her winning group ticket.

Extra may not be added to a free play.
